• Soft Skills:

- Strong problem-solving and analytical thinking.
- Excellent communication skills for collaboration.
- Efficient time management.

• Summary

I have been working since the beginning of 2019. During this period, my experience divided into two parts: the first two years were characterized by manual testing with a little bit of automation tasks, while the remainder of the period was dedicated to purely automated tasks. I have also worked on various projects, including websites, mobile applications, and APIs. Depending on the project, I utilised frameworks such as Selenium, Cypress, Appium, RestAssured and others.

• Work History

Arab Bank
QA Automation Eng [June 2021 - Present]

Fetchr
Software Test Eng [March 2021 - June 2021]
Total: 3 months

Quality Business Sulotion
Quality Eng [Jan 2019 - March 2021]
Total: 2 years & 3 months

• Education

BS degree - as Software Eng - Balqa Applied University
Date: 2016 - 2019
